## Change Management

**Guide Change Processes  
Competently**

### **Content**

Changing processes within the company always demands from all involved a high willingness to change. At the same time this willingness is not always given. Nevertheless, how do you manage the CM-process in order to achieve success?

### Workshop:

Basics and types of change management, demand on the Change Manager, success factors in change processes, intervention designs, recognising and handling danger or risk, focus employees, communication management

### Optional: Individual Consultation:

Individual coach guides through the CM process

### **Advantages**

- Faster adaptivity of employees
- Increased willingness to change
- Time optimisation of CM processes
- Reduced potential risks

### **Methods**

Workshop or individual coaching, video analysis

### **Duration**

2 days for 6-12 participants
